Map of Species Observation

Observer: Test@test.com (mailto:Test@test.com),
Test@test.com (mailto:Test@test.com)

Date Observed: 2021-03-12 12:00:00

Species: Aegilops cylindrica (Jointed Goatgrass)

Location Description:

Coordinates: 34.045912°N -117.205793°E, WGS84

This is a test for the r-binding api . Found in Mohave county, Arizona.

Habitat Description:

This is a test for the r-binding api

General Description:

This is were you could add any information in addition to what else you had in the comments when you conducted and uploaded the observation. However, since this is just to show how one can create an active document tied to the survey123 data I am just having the comments appended to this paragraph. This is a test for the r-binding api
